Village of Lake Tanglewood	7
Water Quality Update	9-10
Roofing Notice	11

Village building permits needed for all construction, including homes, outbuildings, pools, roofing, boat and swim docks, fences, and retaining walls. To obtain a permit, call the Village of Lake Tanglewood at 806-622-8711.

All watercraft must use the guard gate for entry. A \$250 fine applies to any watercraft entering through the members' gate.

The Maintenance Department's hours of operation are 7:30-3:30 Monday through Friday (622-3714). For weekend and after-hour emergencies please call the gate at 622-1701, and the gate guard will contact the maintenance employee on call.

Come join us at the Restaurant. The daily specials posted on Facebook and the Sunday brunch are from 8:30 to 12. **(BEST BREAKFAST IN TOWN – Saturday and Sunday mornings)**

HAPPY HALLOWEEN!

Sincerely,

Brett Pate
LSIOT, Inc. General Manager

Deadline for Newsletter is
OCTOBER 20TH
Be sure to have it to us by NOON
on this day!

Lake Tanglewood Womens Club

OCT. 05- Therapy and games

OCT. 12- Shopping and lunch
to be announced where.

OCT. 19- Visit Palo Duro Canyon/lunch

OCT. 26- Business meeting

New 2025-2026 L.T. Phone Books
are now for sale at the L.T. Office. \$15 each
Thank you, L.T. Women's Club.

Hello swingers and hackers. Hope this finds you well.

Not a lot to talk about this month I have the winners of the Labor Day scramble and will include them at the end of this letter.

I've been talking with Bret and our new leader for the maintenance Department and Golf Course. (Dakota) The Golf association is committed to help with the financial part and physical part of getting some things going on our fairways, tee boxes, and greens. These ongoing conversations as of now have been overshadowed by the shape of our greens on the golf course. seems that the heat this summer has taken its toll on our greens. The thing I can stress to players is to not damage them anymore than they are so be mindful when you're on the greens such as moving your ball over to get through and walk around the bad spots we have had some terrible heat and little rain and those two spell disaster for Golf Course courses in General but we have a plan in place to bring those back we may need to be playing from a modified or a temporary Green in The interim.

Another item that has come to my attention is driving on the fairways. In my 30 years of playing when fairways are in good shape in Amarillo in Dallas in Ireland in Canada in England, you can drive on the fairways what you don't do is drive where grass is not growing. If you do drive over that that just makes a rut and makes it very difficult for grass to grow.

I know our plans have been to take care, especially of the back nine to put Seed and sand on the bear areas and try to get them to grow. Although our water delivery system needs to be in place before we attempt this.

As I said before, Rick and I are looking for some young blood to help us with the leadership of the LTGA. Please contact me if you are interested.

Thanks again for supporting the golf association.

Roger Turner .

LT LIONS CLUB

Lions will meet the first and third Thursday of every month 7:00 pm at the Community Center.

VILLAGE OF LAKE TANGLEWOOD

1000 Tanglewood Drive
Amarillo, Texas 79118

Office Phone: 806-622-8711
Cell Phone: 806-341-9786
Ltsecretary@laketanglewoodtx.gov

To all Members, Contractors, Roofers, Builders and Landscapers:

When Spring time approaches, please be mindful of these items:

1. Hours of entry into Lake Tanglewood for projects are **7:45 am-5:45 pm**
2. ALL PERMITTED WORK MUST BE: APPLIED FOR, APPROVED AND PAID FOR BEFORE CAN BEGIN, ALSO, THE VILLAGE MUST HAVE CURRENT LIABILITY INSURANCE ON FILE WITH THE VILLAGE OF LAKE TANGLEWOOD LISTED AS THE CERTIFICATE HOLDER.

Important Days and Times:

2nd Monday of the month: Monthly Village Council Meetings at the Village Hall at 6pm
1st & 3rd Tuesday of the month: Fire Department meetings at the Fire House at 7pm
Wednesdays (as needed): Building Committee at Village Hall at 5:30pm

Building Permit and Inspections

Building Permit Applications must be submitted before noon on Friday in order to be considered at the following Wednesday's meeting. Applications can be printed from the laketanglewood.org or can be picked up in the Village Office or LSIOT Office.

Roofing Permit Applications can be completed and emailed to the Village Office for quicker turn around at
Ltsecretary@laketanglewoodtx.gov

Inspections are completed by Robert Downing. Please call the Village Secretary to schedule all inspections 806-622-8711 or email Ltsecretary@laketanglewoodtx.gov

To schedule a boat dock inspection for membership transfer, please email the Village Office to be put on the list. Payment of \$95 must be paid prior to inspection and can be dropped off in the LSIOT or Village Offices.

All re-inspections cost \$95 and must be prepaid to the Village Office

Lake Tanglewood

MPC-Buoy Community Water Quality Update

Water clarity has improved significantly over the past month. Turbidity readings across our three monitored buoy stations are down 60–63% since early July. At the same time, the lake is coming off one of its hottest stretches on record — more than 10 straight days at 100°F, and close to 20 such days over the last 3–4 months. That heat is showing up in lower dissolved oxygen and, in the past two weeks, an uptick in cyanobacteria pigment levels at two of the three stations. These are well-documented effects of extreme, sustained heat on lakes generally — not signs the buoys aren't working; the clarity data says otherwise. We are restoring the one unit that went offline and continuing close monitoring while this heat wave persists.

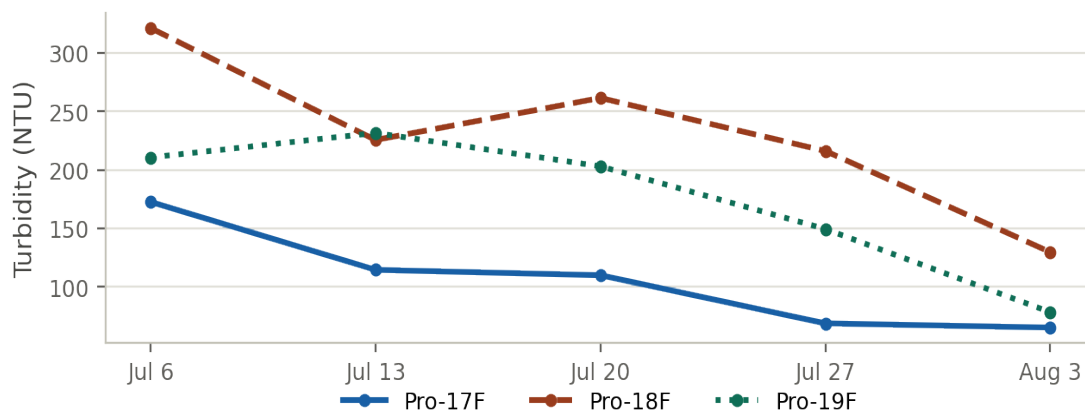

Turbidity: the clearest improvement

Comparing early July to the most recent week across all three sensor-equipped stations:

- Pro-17F: 172.7 → 65.2 NTU (down 62%)
- Pro-18F: 321.3 → 129.7 NTU (down 60%)
- Pro-19F: 210.7 → 78.4 NTU (down 63%)

In early July, Pro-18F was reading at the sensor's upper limit (400 NTU) roughly a third of the time. That figure is now down to about 1–2%. This is a real, measurable gain in water clarity.

Turbidity trending down at all three stations

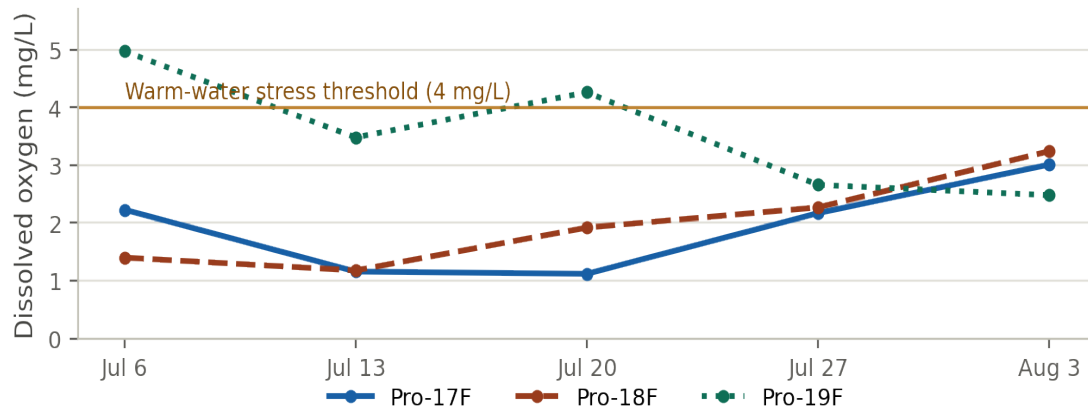

Weekly average turbidity by station, July 6 – August 3, 2026

Dissolved oxygen: tracking the heat, not the equipment

Dissolved oxygen has been low across all three stations for most of the month, frequently below 4 mg/L and often below 2 mg/L — stressful conditions for fish and other aquatic life. This lines up with the extreme, sustained heat: prolonged high temperatures reduce top-to-bottom mixing in the lake (thermal stratification) and warm water simply holds less oxygen. The MPC-Buoy system's ultrasound technology is designed to suppress cyanobacteria growth rather than actively aerate the water column, so this heat-driven condition is not something the buoys directly correct.

Dissolved oxygen low lake-wide, tracking the heat

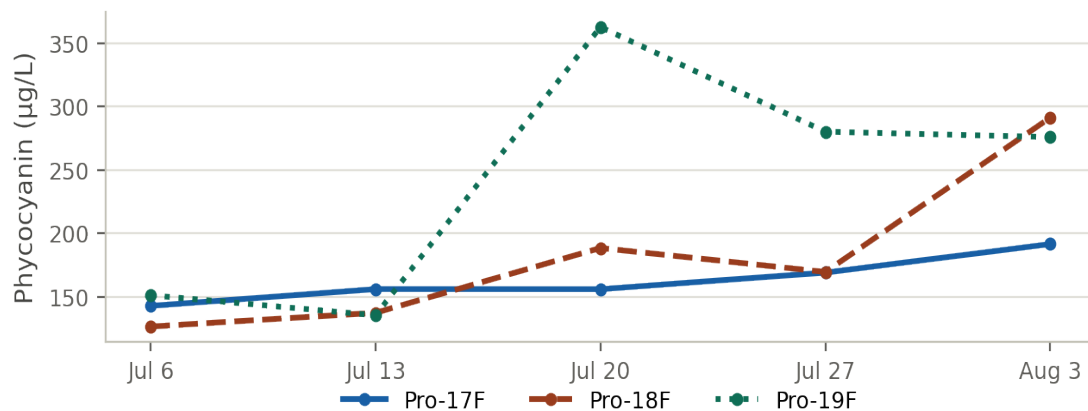

Weekly average dissolved oxygen by station, with the 4 mg/L warm-water stress threshold shown

Cyanobacteria pigment: the one to keep watching

Phycocyanin, which tracks cyanobacteria specifically, has risen over the last two weeks at Pro-18F and Pro-19F — roughly double early-July levels — even as turbidity improved. This is consistent with one of the more extreme heat stretches the lake has seen, and cyanobacteria tend to capitalize on exactly these conditions. We're flagging this now rather than waiting for it to become a surprise.

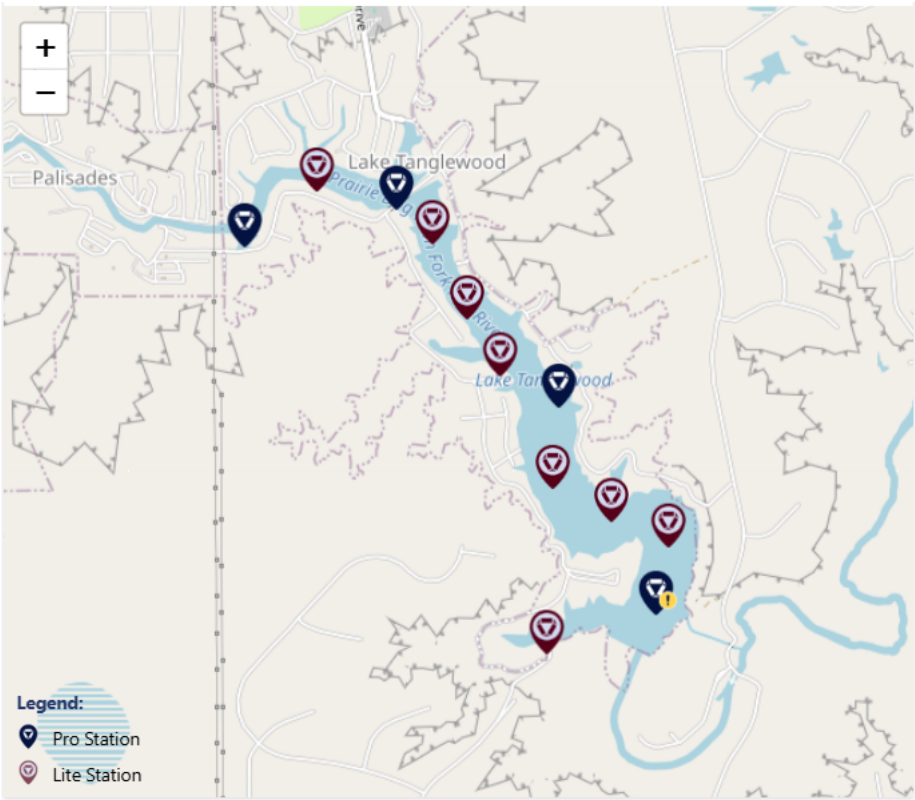

Phycocyanin rising at two stations, recent weeks

Weekly average phycocyanin by station, July 6 – August 3, 2026

Monitoring network

The map below shows the current MPC-Buoy deployment across Lake Tanglewood. Data in this update comes from the three sensor-equipped Pro units (Pro-17F, Pro-18F, Pro-19F); the remaining units provide ultrasonic treatment coverage across the lake. One unit is currently offline — a technician is being scheduled to assess and restore it.

MPC-Buoy locations, Lake Tanglewood

Questions about this update or the data behind it are always welcome — reach out any time.

IMPORTANT NOTICE TO ALL RESIDENTS

ROOF REPLACEMENTS REQUIRE A PERMIT

The Village of Lake Tanglewood would like to remind all residents and contractors that a building permit is required **BEFORE** any roof replacement work begins.

Obtaining a permit is **not optional**. Beginning a roof replacement without an approved permit is a violation of Village ordinances and may result in a **Stop Work Order and/or fines**.

ROOF PERMITS ARE A SIMPLE PROCESS

Roof permits do not require approval by a quorum of the Building Committee and can be approved quickly.

The **roof permit fee is \$295**, which includes the required inspection.

BEFORE YOUR ROOFER STARTS:

Apply for and receive approval of your roof permit.

Please do not allow a roofing contractor to begin removing shingles, materials, or performing replacement work until the permit has been approved.

ROOFING COMPANY ADVERTISING SIGNS

Please be advised that **roofing company yard signs are not permitted on residential lawns for advertising purposes** within the Village of Lake Tanglewood. We ask residents and roofing contractors to please refrain from placing these signs on Village properties.

We appreciate everyone's cooperation in following Village ordinances and helping maintain the standards of our community.

Village of Lake Tanglewood
